7:00 PM

Meeting location was at the Schoolhouse.

Information was given about the Raymer Well Drilling donation. Raymer is willing to donate the entire cost of the deep well. Around \$11,000.00 was an estimate.

Concern was given about the Plumbers and Pipefitters Union getting their portion of the indoor plumbing done so the well drillers can hook up to the interior bathroom. The Union Training Center was going to donate a large portion of the interior plumbing to the Schoolhouse also. Jim Key will check on their schedule for completion.

Update on the 40 acre woods, Jim Key is talking with Luke Meerman on the possibility of State or Federal money to help with the purchase of that property.

There are a couple of cracks in the wall that may have to be repaired before the floors are done.

Tile for the bathrooms should be found and or ordered.

Meeting adjourned, 7:45PM
